Montessori Methodology in Language Training for adults

Transnational Meeting and Certificate Ceremony - Thursday 8th May

This is an invitation only event.

Almond Vocational Link is currently carrying out work around the famous Montessori style of education. This approach was developed by an Italian physician and educator Maria Montessori and is characterised by an emphasis on independence, freedom, and respect for natural development. "Montessori Methodology in Language Training" is a European Commission supported educational program, focusing on implementing the Montessori methods in adult language training.

This is a Transnational meeting with partners from Italy, Hungary, Greece, Romania and Poland. During this meeting, we will also hold a certificate ceremony for teachers who completed the MMLT Teacher Training Course. We are honoured and proud to say that the Lord Mayor of Plymouth will officially open this event at 10am. Representatives of the local press and media will be present.

During the time our company spent working on this project with other European partners, we contributed in creating training materials, presented the manual to language teachers in England and provided them with free of charge MMLT training course. As a direct result of our involvement in this project, back in February 2014, we started our own Language Cafe. Language Cafe is a weekly event during which we use Montessori methods to help foreign speakers improve their English.

Participation in this project has truly changed the way our company thinks about language training, especially as far as adults are concerned.
